## \$1,000 Needed To Complete Chest Drive

### Workers To Report Next Wednesday On Clean-Up

The Salem Community Chest is still short about \$1,000 of reaching its goal.

One last intensive push toward the \$35,480 goal was made today by Chairman Charles Haldi in an attempt to wind up the drive which is in its fourth week.

#### Some Reports Incomplete

A few divisions have yet to complete their reports, he explained, and we are making every effort to have all canvassing completed by the weekend. "We hope to be able to report the drive over the top by Monday," he said.

Any person, or firm, who might have been missed in the solicitations is asked to telephone his or her pledge to the Chamber of Commerce office (4788) or leave subscriptions there.

The final meeting of team captains and workers has been set for next Wednesday evening at 7:30 in the C. of C. rooms. Chest contributors also are invited to this meeting.

The chest fund to benefit nine local agencies and the U. S. O., providing operating funds for the ensuing year.

The funds have been earmarked in this manner:

The Memorial building, 9,000; City hospital, \$8,000; Catholic Charities, \$1,150; Central Clinic hospital, \$3,000.

Boy Scouts, \$3,300; Girl Scouts, \$2,500; Home for Aged Women, \$1,500; Legion Quaker City band, \$1,150; Salvation Army, \$3,125; USO, \$775, and Community Chest emergency fund, \$1,500.

## Supplies For Election To Be Distributed

Putting the finishing touches on preparations for Tuesday's general election, the county election board will distribute supplies Saturday and Monday for its 121 precinct polling places.

The work gets under way Saturday at the courthouse in Lisbon, where the board will hand out supplies for the entire northern end of the county. It has asked presiding judges to call for the supplies between 9 and noon.

Meanwhile, a heavy demand for absentee ballots indicated comparatively strong interest in the impending city, village township and school district balloting.

The board issued 324 absentee and disabled civilian voters' ballots before the deadline Thursday night, 73 more than the 251 taken out for the last similar election in 1947.

## Timken Strike Deadline Nears Make Last Efforts To Postpone Tieup

CANTON, Nov. 4—(AP)—A pension powwow between Timken Roller Bearing Co. and CIO Steelworker officials will decide whether Timken plants in five Ohio cities will be struck at midnight tonight.

The Steelworkers are asking a pension program similar to that arrived at in Cleveland Monday night between the USW and the Bethlehem Steel Corp.

Timken has offered to extend negotiations to Dec. 31 and to pay six cents an hour more to its employees for every day past that until some pension plan is agreed upon. The union has given neither a "yes or no" answer yet.

### Ask Extension

The company also asked that the workers' right to strike be moved up from midnight tonight to Jan. 10, 1950. Under the present contract, negotiation talks had to end by Oct. 27 and the union's power to call a strike legally expires tonight.

After tonight, as it now stands, the Steelworkers can't walk out until the contract dies in July.

G. H. Turner, Timken public relations director, said the CIO Golden Lodge, biggest Timken local, offered yesterday to continue talks on a day-to-day basis, reserving the right to strike any time.

He said the firm turned thumbs down on the plan because its employees would be "uneasy" working under such an arrangement and because the company would be unable to make delivery promises to its customers with the strike threat hanging over it.

Timken, with 10,000 employees in Canton, Wooster, Mount Vernon, Columbus and Zanesville, claims it needs more time to look over details of the pension plan.

The temporary wage boost, which corresponds to the cost of the presidential steel fact-finding board's pension program, is believed the first such proposal offered in the steel strike, now on since Oct. 1.

## Accidents Drain Hospital Blood Bank

Salem City hospital needs blood again.

The recent wave of serious traffic accidents has resulted in an abnormal drain on the hospital's blood bank, which is now at a low ebb.

In two days this week, six pints of blood were given to accident victims, an unusually high figure. During the last 10 days of October, 23 pints of blood were used.

According to Mrs. Frederick Cope, laboratory technician, the blood bank can use all the Type O and A blood it can get. Anyone interested in donating some of the life-saving fluid should contact Mrs. Cope at the hospital for an appointment.

Several members of Salem Amvets post gave pints of blood this week after learning of the shortage.

## Schools' Growth, Educational Needs Rest On Passage Of 3-Mill Levy

The board of education's 3-mill tax levy, before the voters next Tuesday, is to provide operating expenses for the schools for five years.

Half of the levy is a renewal and half is to meet additional expense caused by the rapid increase in enrollment in the elementary schools.

From 1947, when the levy began, to 1954 when the proposed levy will expire, the enrollment in Salem's elementary schools will have increased 36 percent, it is pointed out. Fortunately, the board's building program will enable the schools to accommodate this all-time high enrollment. To give these boys and girls the educational opportunity they deserve, additional teachers, janitors, textbooks and

This cloth, with needles and thread, will be shipped overseas. A committee of church women will see to the packing.

## Driver Killed On State Rt. 14

### Cleveland Victim As Car Hits Pole

Another motorist met death on a district highway this morning. The accident occurred on Route 14, one mile east of Salem on the Millville hill, at 2:25 a. m.

The Salem state highway patrol said Dominick Pisaneschi, 41, of Cleveland was killed when his car crashed into a telephone pole. He was pronounced dead at Salem City hospital of a crushed chest.

A passenger, Garnet Dangler, 28, of Philadelphia, Pa., sustained lacerations of the left thigh and right ear and bruises of the head and body. She was admitted to the hospital.

The auto, apparently out of control, left the road while rounding a curve and hit the pole, breaking it off. The car was demolished.

Pisaneschi, who was a laborer, was pinned under the wreckage until help arrived.

## Liberals Must Be Put In Office, Claim

### President Tells Minnesota Folks His Forecasts

ABOARD TRAIN ENROUTE TO WASHINGTON, Nov. 4—(AP)—President Truman's determination to stump the country again next year to elect "Fair Dealers" to congress was strengthened today by his reception in Minnesota.

White House aides said he was elated by his welcome yesterday at Minneapolis and St. Paul where police estimated 400,000 persons lined the sidewalks to cheer him along a 20 mile parade route.

An applauding crowd the police estimated at 12,000 whooped it up again last night in St. Paul's Civic auditorium when he gave a foretaste of the 1950 campaign with a slashing attack on "the propaganda of the reactionaries."

### Convinced He Can Help

The President is convinced that he can help elect liberals to congress by conducting the sort of campaign he made in 1948 through back platform appearances in key states, one close adviser told reporters.

Mr. Truman stressed two predictions in his talk last night that the 81st congress will enact a "good deal more" of his "Fair Deal" before quitting its next session and that there will be a heavier vote in 1950 elections for those with his views.

He called his civil rights, federal aid to education, national health insurance and other "general welfare" proposals the path to future growth.

He said the people were behind him.

"I am not too much worried by those who oppose those policies," Mr. Truman declared. "Between the reactionaries of

## Truman May Use T-H On Coal, Taft

SPRINGFIELD, Nov. 4—Senator Robert A. Taft (R-Ohio) says he would not be surprised if President Truman invoked the Taft-Hartley law in the coal strike, providing the strike is not otherwise settled.

Taft, here yesterday to continue his campaign tour of Ohio, told newsmen this was his "personal opinion."

The Ohio senator declared the President had used provisions of the act seven times in 1948 in labor disputes which were not so far advanced as the present coal strike.

"Consistency on his (Truman's) part," Taft said, "would indicate his action in the coal situation now."

Taft said he favored lifting the federal tax on oleagorine, but he said he would not take a stand on the yellow margarine issue in Ohio. He said he favored provision in the federal bill to control fraud and misrepresentation in the distribution of oleo.

### Various City Units Will Vote On Action After CIO Purge

Ohio locals of the United Electrical Workers, split just as widely as the parent organization over left-wing and right-wing policies, prepared today to vote on their future affiliation.

UE locals in Dayton, Zanesville and Cincinnati will decide whether to stick with the UE or affiliate with the new CIO International Union of Electrical, Radio and Machine Workers of America.

The latter union was created two days ago at the CIO's national convention in Cleveland after the CIO ousted the Electrical Workers and the Farm Equipment Workers because of their left-wing leadership.

The new union will be formally organized Nov. 28 in Philadelphia. Locals in the three Ohio cities are not the only ones expected to take a vote on affiliation with the new union. The Electrical

## Convicted Red Leaders Get Rowdy Welcome

### Harlem A Mob Scene As Top Party Men Get Out On Bond

NEW YORK, Nov. 4—(AP)—Eleven top American Communists were free on bond last night. Less than three hours later a brick-hurling Harlem mob felled six police in a wild welcome-home for one of the Red leaders.

The Communist big wigs signed bail bonds totalling \$260,000 and walked out to a freedom that may last a year until the U. S. Supreme court reviews their recent conviction on charges of conspiring to advocate violent overthrow of the U. S. government.

Defendant Benjamin J. Davis, Jr., Negro city councilman, met a roaring welcome when he made a street-corner speech in Harlem a short time later. With him were defendants Henry Winston, also a Negro, and Robert Thompson.

### Robeson Speaks

Negro singer Paul Robeson, leftist target of two recent Peekskill, N. Y., riots, also spoke. A crowd of about 2,000 cheered the speakers and then began a torch-light parade up Lenox avenue through the tense, crowded heart of New York's big Negro district.

A handful of police stood by. Officers later said the marchers endangered bystanders by waving their flickering torches.

Three police cars swung across Lenox avenue at 114th street. The paraders broke the thin police line and milled around the cars, chanting in tune with a sound truck "we will not be moved."

From rooftops came a barrage of bottles, bricks, saucers, cup and broomsticks.

## Blow At Machine Politicians

One argument used by opponents of the proposed ballot reform which Ohioans will vote on next Tuesday needs to be singled out for special attention.

Those who are trying to block adoption of the new office-type ballot in this state say it would weaken the two-party system and would aid a coalition of minority parties which is the aim of subversive groups.

If that were true, it would be a strong point against changing the ballot form in Ohio. But those who favor the office-type ballot believe the opposite to be true. They claim, with sounder logic, that the reformed ballot would encourage the two major parties to nominate the most capable candidates they could find and thereby strengthen the two-party system.

Under the ballot system now in use, a few strong candidates at the top of the party column give weak sisters further down in the party list a chance to ride into office on the coat-tails of the good candidates.

Under the new ballot system proposed for adoption in Ohio, all candidates would be made to run on their personal merit. The party-column style of ballot would be abandoned. Candidates would be grouped according to the offices they sought, rather than according to parties.

This would not keep voters from voting straight tickets, if they chose to do so. But it would make it necessary for them to vote separately for each candidate of the party they were supporting, instead of giving their support to the whole party list with one X in the party circle.

Surely this couldn't be called a blow at the two-party system of politics. It would be a blow only at the one-party system which is the secret of machine politics, the system that keeps political bosses happy and prosperous.

As we have pointed out previously, the office-type ballot isn't a cure-all. But it will put a crimp in the machinations of machine politicians. It will keep them from ganging up against a good candidate by exploiting straight-ticket voting. That alone is a sufficient reason to vote yes on the proposed ballot reform at the polls on Tuesday.

## Great Game of Freeze-Out

Sec. 296 of the labor management relations act of 1947 (Taft-Hartley act) reads as follows:

"Whenever in the opinion of the President of the United States, a threatened or actual strike or lockout affecting an entire industry or a substantial part thereof engaged in trade, commerce, transportation, or communication among the several states or with foreign nations, or engaged in the production of goods for commerce, will, if permitted to occur or to continue, imperil the national health or safety, he may appoint a board of inquiry to inquire into the issues involved in the dispute and to make a written report to him within such time as he shall prescribe."

When this report has been prepared, the President may take certain steps which will result in normal operation of the industry pending full opportunity to settle the differences by further negotiation and a vote on the strike issue by all the employees affected, if no other settlement has been reached within 60 days. These things may be done at presidential discretion; they are not mandatory.

President Truman has not chosen to apply the Taft-Hartley act to the work stoppage in unionized coal mines. This is because he is opposed to the law and doesn't want to weaken his political position with labor unions by using

it. John L. Lewis also is opposed to the Taft-Hartley act, as are most union executives. They hate it because it is the only means by which their power may be restricted when it is used against the public welfare. Thus, the public now finds itself in the middle of a game of freeze-out between a politician and a labor leader—the leader trying to freeze out the whole country and getting away with it in great style because the politician is trying to freeze out the backers of a federal law. Prematurely but most sincerely, this is to wish both of them the kind of a Merry Christmas the United States will have unless one of them decides to put the national welfare ahead of his pet peeves.

## Ohio 'Hoover Commission'

Arthur H. Flemming, president of Ohio Wesleyan university, will head an Ohio "Hoover commission" to study this state's executive organization. This will come about through the work of a subcommittee of an Ohio program commission, consisting of 21 members representing both houses of the general assembly, the executive departments and the public at large. Dr. Flemming is one of the commission's three public representatives.

As a member of the Hoover commission to study the executive setup of the federal government, Dr. Flemming learned the value of bringing the complexities of public administration into clear focus. For example, in Ohio there is no clear understanding anywhere of the division of responsibility between state and local government. This is the source of endless misunderstanding and confusion.

Cities do not understand that allocation of tax moneys collected by the state. It goes without saying that state officials have no clear understanding of the administrative problems of cities. Much of the confusion can be traced to muddled policy making by the legislature. Much of it can be blamed on the failure of Ohioans as a whole to keep abreast of the problems of state government while distracted continuously by alterations in Washington. Dr. Flemming's study group, if it takes its job seriously, can go a long way to help Ohioans understand their own public affairs.

## Guarding Your Health

By DR. HERMAN BUNDESON

IN some ways — perhaps in many — the physical equipment of the caveman far outclassed that of his modern descendants. One of the features in which he excelled was in the possession of fine, strong teeth. Examination of the remains of primitive man indicates that they were almost entirely free from dental decay, whereas today it is so universally prevalent as to constitute a serious problem.

Decayed teeth are not only an evil in themselves. If neglected they may lead to other conditions which are damaging to health. An infected tooth, for instance, may be the source from which germs and their poisons are taken up and carried to joints, heart, kidney, and brain, there to do irreparable damage.

Civilized Living  
Apparently, tooth decay is one of the penalties of civilized living. Experts are generally agreed that caries, or tooth decay, attacks both the first and second teeth of the vast majority of people living under modern conditions. A study of more than 12,000 children shows that 95 per cent had some decay of the permanent teeth by the age of 15. About 15 per cent of their combined teeth were either decayed, missing, or filled.

It is interesting to note that there are more caries in the teeth of girls than boys of the same age. This is accounted for by the fact that the teeth of girls come in earlier. The economic status has little influence on the amount of tooth decay, whereas, the

chemical make-up of the saliva has a great deal to do with the decay of teeth. The cutting down of starches and sugars, especially the latter, in the diet of persons who are susceptible to tooth decay, is effective in lessening the number of new cavities that develop. It also is known that a well-balanced diet, with or without a reduction of sugars, lessens the rate of progress of caries in children.

## Taken to Dentist

Of course, children should be taken to the dentist regularly, at least once every six months, so that the teeth may be examined and decayed teeth treated. The fillings will not keep new cavities from developing, but will keep the affected teeth from being lost. Recently, it has been shown that applying a fluoride to the teeth will help to decrease the amount of tooth decay by at least 40 per cent. Of course, this application should be made by the dentist.

## Roving Reports

By Hal Boyle

NEW YORK  
Rev. Everett C. Parker used to be a press agent for Chicago live-stock shows.

Now he's an advance agent for the Lord-vin radio. He spark-plugs religious publicity over the airwaves.

"This means something," he said, "that's why I'm doing it. The other thing — his former work as a press agent — 'only meant money.'"

At 26 this energetic minister is director of the Protestant Radio Commission. This organization of the nation's leading Protestant church groups is spending \$172,000 this year for 600 religious radio programs to be heard over some 3,000 stations.

"The programs are organized by Rev. Parker and a staff of three. How he decided to embark on this unusual career is quite a story."

"I had no particular religious background — and in college I lost my religion I had left," he said.

He sold donuts from door-to-door, worked as a chef in a Chicago cafeteria, then started a publicity firm. Then he became program director of a Hammond, Ind., radio station.

One day the owner asked him to go out and find a commercial sponsor for a Lenten program.

"How can anybody sell a religious program?" Parker demanded. "Well, try it anyway," said the owner.

Parker finally got a utilities company to act as sponsor. With his flair for drama, Parker made the program a popular feature. It lasted 4½ years and was sponsored by a laundry and a cemetery, as well as by the utilities company.

"I found out the influence a church has on a community, and the things a minister can do that no one else can do," Parker said, "so I decided to make the whole plunge — to go into the ministry myself."

He was graduated from the Chicago Theological seminary magna cum laude. Awarded a fellowship in religious radio, he spent a year with the NBC network. He was offered a permanent post with NB? but decided his real wish was to devote himself to the ministry.

In the three years since then he has become a leading authority in religious radio, and paid workshops at several universities to teach the subject to other ministers.

"Our job isn't those who already go to church," he said. "We try to reach those who don't go. It's the job of religion to go out and reach the people — that's the teaching of Jesus. And with radio we can reach them."

REV. PARKER has been a trailblazer in creating religious programs that avoid dull sermonizing but carry a real spiritual impact because they deal with problems close to the hearts of listeners. One of his innovations is a TV puppet show that tells Bible tales for children.

"People today are confused and looking for something to tie their loyalties to. If you can show them the solace and personal satisfaction religion brings, you are doing them a favor."

The best writers in radio write the programs for him at a fraction of their usual price. But he insists on paying them, also insists on paying actors on the programs their own minimum.

"We paid Ingrid Bergman \$32 for one show," Parker smiled. "On a commercial show she'd probably get \$5,000."

No money is paid for station time. Most stations are glad to air the programs as a public service.

The minister himself could earn a top salary in the field of educational radio. But he's happy in the job he chose.

"Yes, very happy," he said. "I feel that our country must have religion to survive. Countries that don't have it eventually fail."

You might be interested in how I came upon this story. I got it from two press agents for the Protestant radio commission. Both are Jewish.

"They do the work free," said Rev. Parker.

## Columbiana Short In Drive House Collections Show Big Decline

COLUMBIANA, Nov. 4—A decline in the returns from the house-to-house canvases appears to be the reason the community chest goal of \$4270 was not reached this year. Latest figures from reports to Chairman John L. Hutton showed total contributions of about \$4250.

Contributions from manufacturers, business and professional men exceeded those of last year, but in every one of the five house-to-house zones there was a substantial decline from the figures of last year.

The large addition to the Columbiana High school building is nearing completion.

Four of the six new class rooms

for the high school have been occupied, and the remaining two and the large new gymnasium will be ready within two weeks. A broad concrete walk leads from the Elm st. side to the entrance of the gymnasium, which will seat about 1400.

Twelve members of Firestone American Legion post auxiliary attended the October meeting of the county council in Leetonia Wednesday evening, for which the Leetonia auxiliary was host.

Headed by their president, Mrs. Dorothy Lehman, the remaining members of Firestone auxiliary were Mrs. Lora Roller, Mrs. Lois Beck, Mrs. Martha Miller, Mrs. June Patchen, Mrs. Bess Johnson, Mrs. Virginia Horton, Mrs. Gertrude McLaughlin, Mrs. Esther Culp, Mrs. Arvilla Fisher, Mrs. Myron Brubaker and Mrs. Ross Sheets.

Nearly all the Columbiana county auxiliaries were represented. Plans for the coming year were discussed.

Auxiliary No. 4 of East Liver-

pool will be host for the December meeting; the date will be announced later. Firestone auxiliary will meet next Wednesday evening.

**Station Sets Record**

The October volume of business at the Pennsylvania Railroad station here set a record with \$90,000.

Sponsored by the Faith, Hope and Charity class of Grace Evangelical and Reformed church, a party will be held at the church next Thursday evening from 7:30 to 9:45 for Roy Kridler and Carl Calvin's class.

The Columbiana Clippers will play Lisbon under the lights at Firestone park stadium Friday evening, beginning at 7:45.

## Oglebay Estate Favors W. Reserve

CLEVELAND, Nov. 4—(AP)—Probate court records showed here yesterday that the late Crispin Oglebay, Cleveland financier and banker had left most of his estate to Western Reserve university and to Oglebay park in Wheeling, W. Va.

Oglebay, a bachelor, died Oct. 23. The value of the estate was listed at more than \$1,000,000 by executors.

Oglebay bequeathed his entire residuary estate to the Cleveland foundation with the proviso that one-half be used for Western Reserve, where he served as trustee. He expressed the wish that three-quarters of Reserve's share be used to support the school of medicine in University hospitals.

The remaining half of his estate is to be used for the "development and maintenance of public educational and cultural facilities at or emanating from Oglebay park."

The park was a gift to the city of Wheeling from his father, the late Col. E. W. Oglebay.

The Great Lakes shipping, coal and ore magnate provided his sister, Miss Kate Oglebay, with a life-time income from his residuary estate.

**OPEN CONVENTION**

CANTON, Nov. 4—The Ohio department of the Veterans of Foreign Wars opens its three-day midwinter convention here today. Officials expect 1,500 delegates from all Ohio Posts and auxiliaries to attend.

CARL BECKER, who won a fight to have Norma Hutchins, his bride-to-be, released from the State hospital at Dunning, Ill., poses happily with her at the Chicago marriage license bureau. Miss Becker in June postponed the wedding until autumn. Later she collapsed on a street and was declared insane. A Chicago Circuit judge ruled her sane. They will wed Saturday. (International)

"T. B. LEVY PAYS FOR THIS. Dr. Robert Dunlap, Columbiana county health commissioner, is shown, above, giving pneumothorax to a tuberculosis patient. This procedure places a cushion of air around the lung so that healing may take place. Miss Helen Hum, nurse, assists the doctor and records the amount of air used. Refills of air may be necessary every week or two. Residents of Columbiana county have this health service available through the tuberculosis levy which is on the ballot for renewal for Nov. 8.

## Indecision

(Continued from Page 1)

Workers also have strong locals in Mansfield, Warren, Lima and other Ohio cities.

The pattern for the immediate future may have been set in Dayton yesterday when Federal Judge Robert R. Nevin granted two temporary injunctions restraining right-wingers from taking over financial and other assets of UE locals there.

The injunction suits were filed in the name of Albert J. Fitzgerald, national left-wing president of the UE.

The orders prevent officers of Local 801 (Frigidaire) and Local 755 (Delco products) from taking over union funds. Both locals are controlled by right-wingers.

At the same time, left wing elements made a further bid for control of the two locals' resources, Arthur Garfield, UE international representative, disclosed contents of a statement which he said would be handed out today to members of the locals.

The statement said in part:

**Statement Quoted**

"The United Electrical Workers will immediately turn over all properties, records, checkoff and administration of the contract into the hands of new leadership to be set up by the rank and file of your local."

CLEVELAND, Nov. 4—Midland Steel Products company yesterday announced it has laid off 800 employees during the past 34

## "A Newspaper Route Can Be Regarded As A Type Of School"

"A newspaper route can be regarded as a type of school that a boy enters voluntarily. A boy accepts the responsibilities of a newspaper route, primarily for the money he can earn. But the money he earns is only a small part of the profit he gains. He puts courtesy and politeness to work for him.

He gains self-confidence in himself and learns how to satisfy his customers. Bookkeeping becomes a necessity, but not a burden for everybody likes to know how much money he is making or has made.

The newspaperboy may be Salem's "Little Merchant" today, but it won't be hard for him to become the biggest."

CLYDE R. REICH,  
Truant Officer, Salem

TODAY'S NEWSPAPERBOY . . .  
TOMORROW'S LEADER . . .

Educators and youth leaders throughout the country recommend this work experience in addition to the boy's classroom studies. He is taking advantage of his opportunities and saving part of his earnings to help further his education. He is thinking of the future and although he is just a young merchant today, you can count on him for an important role in our community tomorrow.

### 'We, The Women'

by RUTH MILLETT

"How can you get along with a martyr?" That's what one young wife who says she is living with one, her mother-in-law, asks me.

"She is always putting herself into a position where my husband and I must feel sorry for her," writes the wife.

"No matter how hard I try to have things pleasant for her she can work things around where she is in the position of a martyr."

"Then when we make all the proper apologies, she smiles sweetly and says, 'Never mind me. Just so you young people are happy.'"

Poor daughter-in-law. She has a real problem. For, of all the people who are exasperating to live with, the martyr is perhaps the most trying.

The only thing I can suggest is to stop reacting the way your mother-in-law is contriving to have you react.

When you're convinced she is just playing the martyr, don't make the proper response. Don't sympathize or apologize or even show that you are put out with her unnecessary martyrdom.

Just ignore the situation completely. A martyr is willing to work hard or deny himself pleasure to get the satisfaction he craves. He wants others to feel they have been selfish or thoughtless or unkind. The martyr who is above such weaknesses forgives all.

But the catch is that if the martyr doesn't get other people to feeling any contrition he has worked or done without or given up all for nothing.

Not even a martyr is going to do that indefinitely. So that catch may be your salvation.

Let the martyr in your home go without her martyrdom even being noticed for a while. It may prove so unprofitable that she will give it up.

Remember a martyr is selfish, and the only way to deal with a selfish person is to see that he doesn't get what he is after.

The social committee (Mrs. R. C. Eckstein, Mrs. Sylvester Jackson and Mrs. Edward Houser) was in charge of the dinner. Miss Lois O'Connell of San Francisco, Calif., was an out of town guest.

### Group Enjoys Luncheon

# Lamneck Hopes To Clear Up Mental Stigma

State Welfare Head Thinks Mental Cases Like Other Illnesses

DAYTON, Nov. 4—(AP)—The general public has a misconception that some stigma is attached to a person who has been mentally ill, State Welfare Director J. H. Lamneck said last night.

Lamneck spoke at a dinner in the honor of a meeting of the Western Ohio Mental Hygiene Institute.

"The director said as soon as most people realize a person can be mentally ill as well as physi-

cally ill—and that no more stigma is attached to one than to the other—then the task of caring for and curing mentally ill patients will be expedited."

## Outlines Plans

He outlined what the state is doing for its mentally ill patients, saying:

"To remove the alleged stigma attached to the commitment of a mentally ill patient by the probate court to a state institution, the present legislature has enacted a law which provides, in substance, that a person may be admitted to a mental institution without going through the formality of having a court commitment."

"This will make it possible for persons who have incipient or early acute mental illness to go to an institution and receive treatment the same as they do when they apply for admission to a general hospital for physical illness."

In order to care for mentally ill patients who have incipient or early acute mental illness, Lamneck said the state is now operating receiving hospitals in Cleveland, Youngstown and Dayton.

A fourth, he said has just been completed at Athens, and the legislature has provided money

to complete three others—at Toledo, Cuyahoga Falls and Ohio State university. Funds also have been provided to build two new receiving hospitals—one in Cincinnati and one in Portsmouth—making a total of nine receiving hospitals operating, under construction or planned.

In the same address Lamneck said his department is "scraping the barrel" for operating funds, but that it must increase—not decrease—the number of employees in penal and mental institutions.

## Farm Bureau Wants Oleo Confined

COLUMBUS, Nov. 4—(AP)—An Ohio Farm Bureau Federation official says Ohio dairy farmers do not disapprove of oleomargarine as such, but insist it should be marketed "within its merits—an imitation of butter."

In a prepared statement, D. R. Stanfield, legislative director for the federation, charged yesterday the butter vs oleo controversy had become "clouded with mud-slinging and false accusations."

"Consumers have no guarantee that oleo will remain cheap if manufacturers are permitted to color their products yellow," Stanfield said. "They have only the word of the manufacturers who, in other states that allow yellow coloring, have not hesitated to raise the price."

Stanfield accused the oleo lobby of promoting "a phoney war" between soybean and dairy farmers. He added there was "no basis for differences between the two industries."

Voters will go to the polls next Tuesday and decide whether they want to permit the manufacture and sale of colored oleo in Ohio. At present Ohio housewives must do the coloring themselves.

For a flavor change, bake fish fillets in a creole sauce and serve with potato puff and buttered spinach.

## Sea Lampreys Found In Inland Waters

ST. PAUL—An invasion of sea lampreys in the Great Lakes is threatening Minnesota fishing waters.

Dr. Ray Johnson, fisheries research supervisor for the state department of conservation, said waters along the shore of Upper Michigan are infested and a sea lamprey has been captured off Grand Marais, Minn.

The sea lamprey is an eel-like parasite which fastens itself on valuable game fish and sucks their blood and body juices. It favors the soft-scaled lake trout.

Johnson said specimens have been taken in the Chicago drainage canal which connects the Great Lakes with the Mississippi. This means, he said, that the lampreys may come upstream in the Mississippi and infest Minnesota lakes.

Johnson said the lampreys already have damaged trout fish-

ing in Lakes Huron and Michigan. They invaded the Great Lakes through the St. Lawrence gateway about 15 years ago, experts believe. Since then, they have cut annual trout production in Lake Huron from 1,720,000 to 5,000 pounds.

## Skunk Oil

Wonderful For CHEST COLDS

R. J. Blake, Pennsylvania druggist, says: "SKUNK OIL SALVE gives quick relief from distress of chest colds, croupy coughs, muscular aches and pains." For centuries, the rich, warm, penetrating oil of the lowly skunk has been used in Russia and other cold countries to relieve certain forms of congestion, rheumatism and sore, aching muscles. Now, this pure natural penetrating oil is incorporated with six other natural ingredients into a delightfully smelling aromatic salve. Its warm, stimulating glow will last hours longer than the cheaper petrolatum salves. Get a small jar at your druggist today. Don't wait! (If druggist out of stock, accept no substitutes but rush 75c to Ol-Tyme Medicine Co., Box 1126, Warren, Ohio, for genuine relief-giving SKUNK OIL SALVE. Or \$3 to above address for a year's supply for the whole family.)

## Cactus Apple Finds Market In East

SAN DIEGO, Cal.—About the oddest crop produced in San Diego County is the cactus apple.

The three Maniscalcos brothers have 30 acres planted in cactus. They call it spineless cactus but it has plenty of spines. Small ones, though.

The pickers wear long leather gloves, heavy canvas aprons that cover legs and body and a lot of fortitude.

Sam Maniscalcos says they ship eight to 16 carloads of the sweet fruit to eastern points every harvest season.

"We use Mexicans to harvest because nobody else will do it," Sam says. The men climb ladders to reach the fruit, then slice it off with sharp knives. It's dangerous to fall.

The fruit itself is inside a prickly husk. That's the reason the sweet pulp went unsung for so long. The flavor is a cross between pomegranate and watermelon, and like both of those fruits, there are countless seeds. The seeds are eaten along with the pulp.

Most of the fruit is shipped to the New York Italian colony.

Sam says the one compensation they find with their crops is that no one sneaks in to steal the fruit.

## Will Mail Vets' Checks By Number

WASHINGTON, Nov. 4—(AP)—The order of payment of the \$2,600,000,000 special insurance dividend to World War II veterans will be based generally on the last three digits of a veteran's service serial number.

The Veterans Administration explained today for the first time the system under which checks will be mailed to veterans holding national life insurance policies. Payments are to begin in January.

Under the procedure, VA said, a veteran whose serial number ends in 000—\$5,496,000 for example—will be included in the first mailing of checks.

On the other hand, a veteran with a serial number such as 100,990 will be among the last to receive his check.

**Non-Discriminatory**  
The VA said this method of payment was decided upon after careful consideration, and described it as the most non-discriminatory that could be devised.

The full serial number has nothing to do with the order of payment—merely the last three digits. Likewise, the number on the card which VA sent to applicants acknowledging claims has nothing to do with it.

Applications will be broken down into groups as they are received. These groups then will be separated into ten processing units by the last serial digits—0 to 9. There is a voucher writing machine for each of the ten groups, and it is hoped to handle a total of 200,000 accounts daily.

This will be reached by drawing out 20,000 cards from each of the ten final-digit groups.

After all last digit serial numbers 0 to 9 have been processed,

## Ford Plants To Continue

Good News On Auto Front Is Heard

DETROIT, Nov. 4—(AP)—The Ford Motor Co. threw a note of cheer into the auto industry's steel-darkened picture today, announcing it would be able to continue nearly full production in all divisions but Lincoln throughout this month.

Earlier the company had planned to shut down its huge Rouge plant between Nov. 11 and 15. That might have meant quick paralysis of the vast Ford system.

## News Encouraging

Emergency operation of Ford's own steel mill at the Rouge factory and "encouraging news in the press" on the steel situation made the new plans possible, a statement from executive Vice President E. R. Breech said.

Breech reported the company would continue production of

Fords and Mercurys at slightly reduced schedules all this month. Lincoln output will be halted Nov. 11, he said, but should be resumed in December.

Because of the move, about 100,000 Ford workers who had expected to be laid off within two weeks will be getting their paychecks for the rest of the month, at least.

"It is certainly our hope to continue operations without a complete shutdown," Breech declared. "We will do everything possible, even if it involves greatly increased costs, to keep the plants running."

The Ford announcement came as Chrysler Corp. closed its Dodge, DeSoto and Chrysler division because of a lack of steel, idling about 35,000 of its 91,000 Detroit area employees.

## Plymouth Goes On

Chrysler has said it hopes to continue manufacture of Plymouths and Dodge trucks "as close to Thanksgiving as possible."

General Motors Corp., has announced no shutdown plans, but recently placed a few of its plants on a four-day week.

said Mr. Dale Hudson, gas operator,

## BURKHARDT'S BEER WINS OHIO CITIES' TASTE TESTS

Skill will tell! Burkhardt's Beer was the winner when hundreds of bottles of the beers most popular in Canton were compared in a city-wide taste test—just as Burkhardt's has won in other Ohio cities!

When Mr. Dale Hudson sipped the unidentified bottle of Burkhardt's, he picked an old favorite. He was praising the fully-aged flavor of Burkhardt's. He could spot its full hops flavor . . . He could taste the full measure of rich barley malt used in its brewing. He could pick the beer that has won one taste test after another across Ohio.

### Find Wrecked Plane And Pilot's Body

WARWICK, R. I., Nov. 4—(AP)—Wreckage of a plane which circled Boston for hours in a thick fog last night was found in a field here—the pilot dead inside it.

Warwick police said the plane was found by Mrs. Robert Campbell, who lives nearby.

They said the plane wreckage bore the number NC3205V—the number of the craft owned and piloted by Cleo McKiver, 46, Cincinnati manufacturer.

Mrs. Campbell reported to police that wreckage of the plane was scattered "all over" the small field.

The body of the pilot was found on the ground a few feet to one side of the wreckage.

### Liberals

(Continued from Page 1)

the extreme left with their talk about revolution and class warfare and the reactionaries of the extreme right with their hysterical cries of bankruptcy and despair, lies the way of progress.

"Between those two extremes, the main stream of American life rolls steadily onward toward a better world."

Mr. Truman spoke on the anniversary of the day last November when he received word of his victory over Thomas E. Dewey in the bitter 1948 campaign. It was "Truman day" in Minnesota's centennial observance.

**Youngdahl Host**

Republican Gov. Luther Youngdahl was one of his hosts. The President called it a "bi-partisan" visit but laughed every time he did so.

And he described last night's talk in advance as one of "bi-partisan nature which will be entirely satisfactory to the Democrats in Minnesota." He even kidded about hoping to make a Democrat out of Youngdahl.

The President's train, the one in which he campaigned last year, is due back in Washington tonight.

In last night's speech, the President said his administration holds that "all Americans are entitled to equal right and equal opportunities under law, and to equal participation in our national life, free from fear and discrimination."

Its policies, he continued, spell progress for all our people.

"These policies mean more personal freedom for all Americans, not less. They are our staunch shield against Communism and against every form of totalitarianism. They are the means by which we will achieve the better world we seek."

### Convicted

(Continued from Page 1)

the department's top officials, poured into the area—on edge for weeks over a bitter local election campaign in which Communism is a dominant issue.

Six persons—four of them Negroes—were arrested. One Negro was charged with assaulting a policeman. The other men were accused of disorderly conduct.

The injured police, none hurt seriously, were taken to hospitals after they were hit by bricks or other objects.

The parade finally broke up as some of the crowd followed Davis off to other meetings.

**Seeks Re-election**  
The Negro councilman, with strong Communist support, is running for re-election next Tuesday on the American Labor Party ticket.

The U. S. government delayed the release of the 11 Communists, for hours yesterday. Finally, however, it conceded that their bail was in order.

They walked out after dark while about 100 sympathizers outside the federal courthouse cheered and sang their phrase:

"Like a tree by the water, we shall not be moved."

The government had asked no less than \$1,000,000 in bail to guarantee that the 11 Communists will be around to serve their prison terms if they lose their appeals.

However, the U. S. circuit court of appeals set bail at \$30,000 each for four of the Communists, who have bail-jumping records or are deportable aliens. The bond for the other seven was fixed at \$20,000 each.

## Sen. Taft Warns C. of C. Men Of Welfare State Possibility

COLUMBUS, Nov. 4.—(AP)—The British worker earns on the average about \$24 a week. Yet he pays more for food and clothing than does the American who finds about \$56 in his weekly pay envelope.

Sen. Robert A. Taft (R-Ohio) made this comparison Thursday in telling the members of the Ohio Chamber of Commerce meeting in Columbus, O., how he felt a welfare state could affect our nation's economy.

Complete adoption of the Truman administration's welfare state program—socialized medicine, the Brannan plan for farmers, and other projects—would lead to a full-fledged brand of American socialism like the British system, he said.

**Not Britain's Taxes**

"The program would add \$20,000,000 to the national bud-

get which now, he said, exceeds \$40,000,000,000 annually and is running in the red. This, he claimed, would bring America close to Britain's taxation burden.

The 1950 elections will do much toward deciding whether the American economy shall remain relatively free or shall go the English way, he said.

Ohio's senior senator added that, under a welfare state, "the government would then tell everyone where to work, what to do, and when to sleep."

In England, he said, 40 per cent of all income is gobbled up by the government—and the workers get less. In America, Taft said, 25 per cent of the income is now going to the government.

Britain's high taxes have resulted in lower wages, he said. "We ought to face the problem," he continued. "We can't afford

to go beyond the present 25 per cent limit if we are to maintain the freedom and progressiveness of industry.

"Don't kill the goose that laid the golden egg."

He asked: "Can you go any higher and still expect expansion of industry?"

New money going into capital investment is "already down to a trickle," he said. At the same time 1,000,000 new potential workers are entering the labor market annually.

**Advises Thinking**

He advised his listeners to think of how the welfare state has bogged down in England when they think of its good points. He declared "there's a warning there if you want to see it."

The senator in recent weeks has talked before groups in half of Ohio's 88 counties. He said today "I do not believe the Brannan plan is popular with them." Many of his audiences were composed of farmers.

"I don't think the Brannan plan is going to fool anyone," he added. "Why receive a lot of benefits, then receive an enormous bill to pay for them while paying for 500,000 more federal employees to carry it out?"

About half of the national budget goes for foreign aid and national defense, Taft said.

"I think we have reached the point where taxes can not be increased," the senator said. He advocated that, instead, foreign aid be reduced.

Foreign aid should be cut from a high of \$7,000,000,000 a year to not more than \$1,000,000,000 or \$2,000,000,000 at the most, he said.

**PHONES DOUBLE**—Forty million telephones are now in service in the United States—about double the number in 1939—according to a survey by the U. S. Independent Telephone Association. About 32,000,000 of the phones are served by the Bell System, and the remainder by independent companies.

## Strikes' Effects Showing In Sales

COLUMBUS, Nov. 4.—(UP)—The coal and steel strikes effect on purchasing power in Northeast Ohio was evident by the slump in weekly sales tax collections, Treasurer of State Don H. Ebright announced today.

The state's total sales tax collections for the week ending Oct. 22 amounted to \$2,328,986 as compared to \$2,593,039 for the corresponding week last year. This year's figure represented a decrease of 10.2 percent from the 1948 weekly total, Ebright said.

Sales tax collections in Mahoning county dropped 51.1 percent in collections from the same period last year, and declined in Stark county 34.5 percent; Jefferson 29.3 percent; Belmont 34 and in Columbiana 24.8 percent.

Total sales tax collections in Ohio from July 1, 1949 to Oct. 22, 1949, were \$34,930,615 while collections for the same period in 1948 totaled \$38,545,386, Ebright added.

# Next Tuesday, November 8

# VOTE "YES"

# for Yellow Margarine and

# win all 3 ways!

1. You'll get margarine the way you want it—**YELLOW**

2. You'll get it for only about 10¢ a pound more than white margarine

3. You'll get your choice of either white or yellow margarine

At last women of Ohio can stop wishing for yellow margarine . . . and get it. Your "yes" vote at the polls next Tuesday will put yellow margarine on your table, and end your tiresome, time-consuming work of mixing it yellow. The women of 31 other states, including your neighbors in Kentucky, Indiana and West Virginia, are permitted by their state laws to get their margarine yellow. Why shouldn't you be? Vote "YES" for yellow margarine!

It costs the margarine manufacturer nothing to make your margarine yellow. The average of 10¢ to 11¢ more you'll pay to get your margarine yellow goes for federal taxes and license fees.

The big point is—just as soon as these unfair and discriminatory taxes are lifted (which almost surely will happen early in 1950) your yellow margarine will cost no more than white margarine.

According to the National Association of Retail Grocers, unbiased surveys of retail prices in "Yellow Margarine" states prove that the average price difference between yellow and white margarine of the same brand is actually only 10.7¢ a pound.

Your "YES" vote at the polls next Tuesday will not deprive you, or anyone else, of the extra economy of white margarine. You'll definitely have the choice of buying your margarine white or yellow. For both white and yellow margarine will be sold side by side in Ohio—as in other "yellow margarine" states—for the convenience of those who don't want to pay the federal taxes on yellow margarine. Vote "YES" for yellow margarine!

## Xmas Card Artists Vie For Rich Prize

NEW YORK — Nearly 5,000 American artists, some famed, many obscure, put their concepts of Christmas on canvas this summer to compete for a rich prize in the art world, the Hallmark Art Award.

Now, some 2,000 of the paintings have arrived in New York, coming from every state, Alaska, Hawaii and the Virgin Islands, and more are on the way. According to Vladimir Visson, director of the award, they represent almost every known art school and every style of painting.

The first-prize painting will bring its artist \$2,000 plus a chance to compete for an additional \$3,500 international prize and have his creation exhibited at the Wildenstein galleries here as well as at museums in Boston, Washington, Los Angeles and Kansas City.

California has contributed entries from 402 artists. Pennsylvania 394, New Jersey 344 and Illinois 194. Mr. Visson related that New York City, whose population is second only to Paris in the world, turned in 1,670 entries.

In France, where a counterpart of the American contest was held earlier this year, 5,121 artists competed. The winner, Edouard Geog, a 56-year-old Parisian expressionist, painted a representation of the Nativity. His painting

will be pitted against the American winner here in December for the \$3,500 international award.

## Ice Worms Do Exist, Explorers Prove

THE PAS, Man. — An all-out search for ice worms throughout their crawling grounds in northern Canada was promised here by Harold Wells, preparing for the third annual Northern Manitoba Trappers' Festival.

Frosty looks of disbelief were directed at Wells last year when he announced that an exhibit of ice worms would be shown at the festival. Another publicity director's stunt, they said. The worms just didn't exist.

The march of science changed all that this summer.

Walter A. Wood, of the Arctic Institute of North America, led a party into the southwestern Yukon to clock the speed of the Seward Glacier. That job was completed successfully, and it was found that there were ice worms on the glacier.

A statement by officials of the institute said: "The discovery of these worms, some of which measured as much as an inch in length, rudely shattered the skepticism of many members of the party who inclined to the belief that ice worms existed solely in the imagination of good story tellers."

WASHINGTON, Nov. 4 — The Census Bureau reported yesterday Ohio's population as of July 1 was more than 1,000,000 above the 6,907,612 listed in the 1940 census.

In releasing new estimates on the population of each state, the bureau reported Ohio had a population of 7,989,000 on July 1 of this year, or 15.7 per cent more than in 1940.

## No Navy Shakeup Under Adm. Sherman

WASHINGTON, Nov. 4—(AP)—Admiral Forrest P. Sherman indicated today efforts will be made to talk out troubles in the Navy before any more heads are lopped off.

The new Chief of Naval Operations, swinging into his first full day on a tough job, said there will be no great shakeup "If I have anything to say about it."

"That isn't the way to get results," he told a reporter.

Was Handpicked  
Sherman will have something to say about any shakeup because he was handpicked by Secretary of the Navy Matthews to try to bring more harmony into the armed forces. They have been feuding over the roles of the Navy or Air Force in the next war, if any.

Sherman has the job of trying to make the admirals under him happy and at the same time trying to put relations between the Navy and her sister services on a more peaceful, friendly basis.

He took oath of his new office yesterday at a solemn ceremony in Matthews' suite at the Pentagon. He said he was facing different responsibilities but knew he could count on the admirals to support him. He got a smile, a handshake and a wish for "good luck" from Admiral Louis E. Denfeld.

It was on Matthews' suggestion that President Truman tossed Denfeld out as Chief of Naval

**HARBINGER OF THINGS TO COME**—A sure sign of the Christmas shopping season to come was the annual decorating of busy State Street in Chicago's loop. The youngsters make up an appreciative audience as workmen raise a deer to the top of a lamp post.

Operations to make way for Sherman.

Denfeld has been offered the job of commander of the Eastern Atlantic-Mediterranean fleet with headquarters in London. He hasn't said whether he will take it or retire.

For the time being he is going to take two months' off at his home at Westboro, Mass.

## Cupid Took It On Chin In Ohio

WASHINGTON, Nov. 4—(INS)—Cupid took it on the chin in Ohio during 1948, according to a provisional report just published by the U. S. public health service.

A breakdown of the figures shows there were 10,000 less Buckeye marriages last year than there were in 1947—83,146 against 93,779, to be exact.

That means a drop from 12.2 marriages per thousand population to 10.6 per thousand in a year's time.

On the other hand, Ohio divorces dropped by about 4,600. The figures here were 29,263 in 1947, compared with 25,600 last year.

Both the marriage and divorce figures were in line with a national trend.

For a hearty luncheon or supper dish add slices of frankfurters to a soup of dried split peas; use either the yellow or the green peas for the soup.

**SHOEMAKER WANTED**—Photographs taken at the opening of Philadelphia's Community Chest drive—with a loud-speaker "message" by William Penn, atop City Hall—revealed that the founder of the Commonwealth has a poorly shod right foot (see inset). The toe was removed two years ago to strengthen the statue, and will be replaced.
